

# TENANTMAC™

Have problems getting keys back when employees leave your company?  
Do you suspect someone is coming in after hours and taking supplies?  
Ever wonder if someone left the door unlocked on a holiday or weekend?  
Do you want to know who is accessing your suite after hours and when?

TENANTMAC™ is an affordable way to add card access controls to your suite or building without having to pay for an expensive server, software, and staff training. TENANTMAC™ saves time and money for your company.

- No training of in-house security expert
- One card for building and suite
- Custom reporting available
- Database backed up automatically
- No dedicated server or pc
- No costly software or software maintenance

If you need greater access control over your suite, then please consider TENANTMAC™ as an upgrade and receive the savings TENANTMAC™ offers to R&R Realty Group clients.
